INTERNSHIP CERTIFICATE

To whom this may concern:

This is to certify that **Mr. Soumyajit Pal** completed a research internship under my supervision at the **Indian Institute of Science** during June – July, 2026.

During the internship, he worked on parallelizing **a permutation-based nonexpansive image denoiser**. His work focused on eliminating the sequential processing of spatial permutations by developing a custom CUDA-based implementation for parallel aggregation. He implemented and benchmarked the method against a serial PyTorch baseline, achieving approximately a **1.5X speedup while maintaining numerical accuracy**, and analyzed the associated time–memory trade-off. He carried out the work diligently and demonstrated good technical ability in deep learning, GPU programming, and computational imaging.

I wish him all the best in his future academic and professional endeavors.

Sincerely

Kunal Narayan Chaudhury
